

# TOOWOOMBA SECOND RANGE CROSSING

CONSTRUCTION UPDATE

June 2017

## Stage 2 Construction Update

### Warrego Highway east interchange, HELIDON SPA

The Warrego Highway east interchange is a key feature of the Toowoomba Second Range Crossing (TSRC). This essential piece of infrastructure will become the eastern gateway to the TSRC, allowing motorists to enter and exit the toll road when it is completed at the end of 2018.

### Traffic changes

From **late June / early July to September 2017**, median earthworks will begin along a 3km stretch of the Warrego Highway east interchange at Helidon Spa between Helendale Drive and Connoles Road. Motorists can expect delays in the following ways:

- traffic will be reduced to one lane in each direction due to the closure of east and west bound median lanes
- speed limits will be reduced on the Warrego Highway for the length and duration of the lane closures
- hold and release traffic control may be in place outside peak work hours.

### Work hours

Works will be carried out **between 6am and 8pm** (weather and construction conditions permitting).

To ensure you plan enough time for your journey, stay up to date with Nexus traffic impacts on our website and the Queensland Road and Traffic information page or 13 19 40 hotline.

Nexus apologises for any inconvenience and appreciates your patience while these vital construction works are being carried out.
