

# TOOWOOMBA SECOND RANGE CROSSING

CONSTRUCTION UPDATE

July 2017

## Ganzer Road closure, Gowrie Junction

Ganzer Road realignment works are progressing the next stage of construction including a two-metre deep excavation where the new road connects with the existing Ganzer Road.

From **early July 2017**, a section of Ganzer Road will be temporarily **closed to all traffic for approximately four weeks**. This will allow for excavation and road connection works.

This will take effect after the **reopening of Boundary Street**.

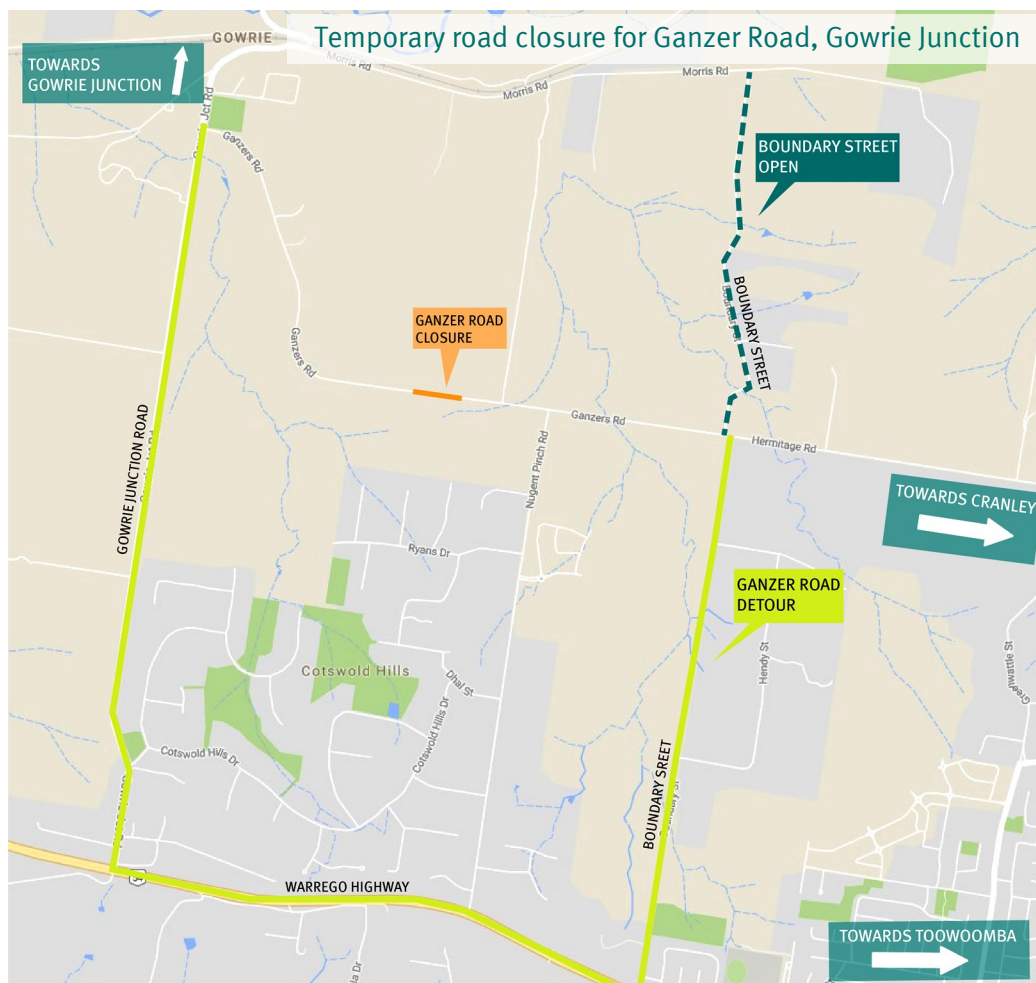

Works will be carried out seven days a week. During this time, there will be signed detours.

When the new Ganzer Road alignment opens, motorists will use the new intersection at Gowrie Junction Road.

There will be continued changes to traffic conditions on Ganzer Road during 2017 while Toowoomba Second Range Crossing project works are completed.

Nexus apologises for any inconvenience and appreciates your patience while these vital construction works are being carried out.
