

TOOWOOMBA SECOND RANGE CROSSING

CONSTRUCTION UPDATE

December 2018

Completion of Nexus works, start of RoadTek works at Warrego Highway eastern interchange, Helidon Spa

Nexus has completed project works on the Warrego Highway eastern interchange of the TSRC at Helidon Spa, but has some minor maintenance works to complete.

We thank you for your patience and support during construction, and we look forward to finishing the remaining section at Ballard and having the TSRC fully operational around mid-2019.

- New contractors have begun preparations for **construction in early 2019 of a u-turn facility east of Postmans Ridge Road** to complete TSRC-related works. **RoadTek** will construct the eastern u-turn facility, beginning in December 2018 and finishing in April 2019, weather conditions permitting.
- Motorists travelling east on the Warrego Highway can **use the existing intersection to turn right into Twidales Road** while construction of the u-turn facility is underway. Once construction is complete, the existing intersection will be closed. The eastern u-turn facility will be for travel from the Warrego Highway to Twidales Road eastbound, from Postmans Ridge Road to the Warrego Highway westbound, and from Postmans Ridge Road to Twidales Road.

For more information on the u-turn works, please contact the Department of Transport and Main Roads (TMR) on 0428 104 468 or email TSRC_Doc_Control@tmr.qld.gov.au

For further information on the TSRC, visit www.nexusTSRC.com.au, email info@nexusTSRC.com.au or call 1800 198 878.
